

# Take Time...

*Take this time away from the frenetic pace of today's living to contemplate the beauty and goodness around you!*

*Learn to hold and cherish each lovely joy that life has ever brought your way; and, when your days aren't quite so bright, they'll bring the sunshine back again.*

*Learn to understand the true meaning of peace on earth, good will towards all mankind.*

*Learn to accept the weakness of others in the hope that they can prom from your good deeds. Cast away loneliness for beautiful memories.*

*Eliminate doubt and replace it with faith.*

*When you're blue, regain hope.*

*When you're troubled, seek inner strength.*

*May you always live and love in such a way that others will see your contentment and share your joy each day.*

*This, the wishes of ...*
